My name is Malcolm McKay and I am 93 years old. I live in my own home in East Helena. I am a WWII Pacific Theatre Army combat veteran who served with Company B 164<sup>th</sup> Infantry. I was awarded the Purple Heart and now suffer from PTSD due to the time I spent in combat.

After the war I was employed with the Great Northern railroad and then the East Helena Smelter. I always paid my bills and never had any financial problems. About ten years ago when I needed assistance, I was befriended by a younger female caregiver that helped me to get to my medical appointments and helped me with paying my bills. I trusted her until recently when I learned that my bills were not getting paid and I had no money. I talked with a friend about it who reported to Adult Protection about what was going on. I trusted this woman and it was hard for me to trust anyone about this. Adult Protection came and visited with me, took me to my bank and helped me to

stop her from taking anymore of my money. They helped me get Meals on Wheels and food to eat because I had nothing in my home to eat. Because this person had made threats to me they assisted me in getting a restraining order so that she could not come to my home and bother me. I own a mobile home on my property that the caregiver's daughter had been renting but I have found that she has not been paying rent or the power bill that was in her name but she recently put into my name also. I recently realized that she has done a lot of damage to the interior of the home. They assisted me in getting an attorney that would help me with the eviction for free of charge. Since they have become involved with helping me I have found that I have been exploited out of thousands of dollars. Adult Protection has gotten law enforcement, County Attorney and the Department of Justice involved in prosecuting this caregiver. They have also assisted me through a volunteer program to get weatherization and much needed work done on my home.

I have no family in Montana so having Adult Protection assisting

me and helping me to get my finances straightened out has been very helpful.
